---

*Full Stack Developer certified in Backend development by the Oracle Next Education program and Systems Engineering student at El Bosque University. I have experience in Java, Spring Boot, and React, developing scalable and efficient web applications. I also manage MySQL and MongoDB databases, and I have knowledge of competitive programming. I stand out for my ability to adapt, solve problems, and work in a team.*

## PROFESSIONAL EXPERIENCE

---

### Universidad El Bosque

Programming Tutor

**Bogota, Colombia**

February 2024 – June 2024

- I provided support to students in programming topics, including DAO, DTO, inheritance, project management, programming fundamentals, and MVC.
- I prepared reports for the coordination team and teachers, ensuring the academic follow-up of the students.
- I met minimum semester schedules, guaranteeing adequate support for students.

## EDUCATION

---

### UNIVERSIDAD EL BOSQUE

Systems Engineering

**Bogota, Colombia**

January 2022 - August 2026

Competitive programming group: Leader and captain of my team, representing the university at the national level on three occasions.

Average: 4.4

### ESCUELA TECNOLÓGICA INSTITUTO TÉCNICO CENTRAL LA SALLE

Industrial technical high school graduate with an emphasis on systems and computing.

**Bogota, Colombia**

January 2016 - Dec. 2026
